

GRF Board Candidate Statement

ADRIAN BYRAM

4139 TERRA GRANADA DR #2A

Adrian Byram

Rossmoor is a wonderful place to live – we are all very privileged to enjoy its beauty and, most of all, its community. A major part of that community results from the willingness of so many of our residents to participate – whether by joining our clubs or getting involved with their Mutual or the GRF. During the seven years my wife, Carol, and I have lived in Rossmoor, I have greatly enjoyed working with my fellow residents in a variety of settings:

- Third Mutual Board Member: 2024 to present
- GRF Finance Committee: Chair, 2022 to 2024; Member, 2021 to present
- GRF TV/Internet Committee: Chair, 2020
- Sustainable Rossmoor: President, 2022; Treasurer, 2023 to 2024

Before coming to Rossmoor, I worked in the computer industry for over 40 years as an entrepreneur and senior executive, including six years as the executive VP of a publicly traded company. After retiring in 2012, I spent seven years in the Neurology Department at the University of British Co-

lumbia, earning a doctorate in neuroethics, a combination of medical ethics and neuroscience, a subject I continue to research. All those years in industry and academia taught me a great deal about how to run an organization successfully, how people make life-changing decisions, how to hold myself and my colleagues accountable, and most importantly, how to satisfy my customers.

You, the owners of Rossmoor, are the customers of the GRF. Thus, the GRF Board's first responsibility is to ensure that your reasonable expectations are being met. I will be the first to acknowledge that not all expectations can be met. But our responsibility as a Board – my responsibility if I am elected by you – is to listen to you, to measure how well we are responding to your expectations, and to be clear about why we, the Board, make the decisions we do.
