

The website project is to develop and maintain an RLC website.

The website will serve to keep members and the public informed as not only RLC activities but also issues within Rossmoor. It is unfortunate that both GRF administration and board limit communication via Rossmoor News as well as Rossmoor.com. Nor have RLC been allowed to be a Rossmoor club and share information through club activities.

The website will serve as an outreach to Rossmoor residents who may be searching on the web by showing up in Google and Bing searches.

The website will also serve as a repository for information in an organized fashion as well as let members know about future meetings with agendas and minutes.
