

The website is up and running as www.rossmoorlife.org.

The coding is complete but may need revisions as we implement and gain a bit more experience and feedback.

The home page has been revised.

The “Newletters” page was dropped in favor of a “News” page to focus on a single news item. Currently it is set to cover the GRF Board election.

The website was submitted to Google and Bing to crawl for web searches to pick up. It was also setup for Google Analytics so the we can track users coming to our website and improve searches.

We need to gather the following:

Agendas & minutes.

Confirm meeting schedule.

Important documents

Committees and chairs

Projects: Descriptions and status

Rossmoor Life Council
